“Kidney shape free standing table combines with side return cabinet and drawer make a perfect combination.”

Whimsy and innovation come together in this kidney-shaped work desk. Rounded instead of rectangular, with curves instead of corners, this desk takes advantage of space and geometry, combining the best of both worlds into one artful, creative desk.

The more utilitarian accompaniment of the kidney table, this low, compact cabinet has wide and spacious compartments, making it easier to keep away more objects or larger ones such as files. Together with the kidney table, the duo form a perfect set for the office worker who prefers to work in style.

“Simple and beautiful, this desk system hosts space suitable for two people. With a small cabinet designed for neat storage, this two-man broad-tabled desk proves that utility and design excellence can walk hand-in-hand.”

More is more-as clearly visible with this work desk. Whether grouped together or on its own, this desk will always look and be as sleek as it is.

MA SERIES MEETING

MA 24BT

“ Meeting table come with built in cable organizer and flipper to manage wire and avoid mess. ”

Do not be fooled by its plain appearance- this desk has several tricks up its proverbial sleeve. Cleverly concealed on its tabletop is a flipper specially designed to manage that messy wire tangle.

Always come prepared, like this desk. It also hosts a cable organizer so things look as neat below as it does above. As they say, neatness is paramount.
